S K Sanjeevan

Chennai, Tamil Nadu | +91 9894283159 | sanjeevansks2@gmail.com | sanjeevansk.linkedin | portfolio

Professional Summary

Data Science-focused undergraduate with a strong foundation in Machine Learning and software development. Experienced in building AI-driven and data-oriented applications with strong problem-solving and analytical skills. Passionate about developing scalable solutions and continuously learning emerging technologies.

Education

Sri Sairam Engineering College | *B.Tech in Artificial Intelligence and Data Science — CGPA: 8.40* 2023 – 2027

Technical Skills

Languages: C, Python, SQL.
Frontend Tools: HTML, CSS, JavaScript.
Databases: MySQL, MongoDB.
Developer Tools: Git, GitHub, Cursor, Antigravity.
Analytics & Automation: Power Bi, Excel, Ui Path.

Projects

BrainyEduBot – AI Study Companion

- Built an AI-powered Telegram bot that summarizes text and PDF documents into concise study notes using LLM-based processing, AI Study Companion Implemented automated PDF text extraction and real-time AI response generation.
- Designed an interactive chat interface enabling on-demand academic assistance for students. Integrated API-based LLM services to enhance summarization quality and contextual understanding.

Stock Trading & Portfolio Management Platform

- Developed a web-based platform to track stock prices and manage a virtual portfolio using real-time data.
- Implemented basic buy/sell features, balance updates, and backend APIs with simple caching for performance.
- Integrated Trading View charts for stock visualization and built a responsive user interface for easy usage.

Internship Experience

Data Science & Machine Learning Intern | *Virtual Tech Services*

- Applied 4-bit NF4 Quantization and QLoRA to fine-tune a Llama-3.1 (8B) model on 2,000+ legal samples, reducing memory usage by 65% while maintaining high reasoning accuracy.
- Leveraged the Unsloth framework to achieve 2x faster training speeds and deployed a real-time Gradio interface for automated legal contract analysis on a single NVIDIA T4 GPU.

Web Development Intern | *Calanjiyam Consultancies and Technologies*

- Engineered a role-based turf booking platform using MySQL, HTML, CSS, and JavaScript, incorporating structured database schemas to efficiently manage users, bookings, and slot availability.
- Designed and implemented authentication workflows and session handling with a multi-state booking status system (Pending, Approved, Rejected) to streamline administrative control.

Certifications & Achievements

- **LinkedIn Learning**: Building NLP Models.
- **NPTEL Certified**: Introduction to Machine Learning certificate, Python for Data Science, Human Computer Interaction.
- **B2G (Build2Together) Hackathon**: Secured 85th position among 500+ teams.
- **Kho-Kho Championship (College Level):** Secured 3 consecutive gold medals.
- **Event Organizer – AIRO 5.0:** Coordinated the WebVerse Interface event at Sri Sairam Engineering College, ensured smooth execution and active participant engagement.
